About Me

Passionate and innovative Full Stack Developer with a strong foundation in both front-end and back-end technologies. Eager to contribute my skills to create meaningful web applications that solve real-world problems and enhance user experiences. My journey into the world of coding was driven by curiosity, and I am committed to continuous learning and growth.

Projects

Social Media App
2023 – Present

Key responsibilities:
- Led the development team as the project lead for a social media app from conception to launch.
- Implemented user authentication, real-time updates, and interactive features.
- Developed the backend infrastructure of the app, handling server-side logic and API endpoints.
- Responsible for database design, including data modeling and optimization for scalability and performance.
- Designed the app with scalability in mind, allowing it to handle increased user traffic and data growth.

Certifications

- Front End Technologies

  IBM

- The Complete 2023 Web Development Bootcamp

  Udemy

- 100 Days of Code: The Complete Python Pro Bootcamp for 2023

  Udemy
